

ÁNGEL ALFÉREZ CASTRO

SAP ABAP Developer · SAP Technical Consultant

ABAP Cloud · RAP · S/4HANA · SAP BTP · Integration Suite · CAP

3x SAP Certified Associate 2026 · C_ABAPD · C_CPE · C_CPI

8 years in meat processing: goods receipt, batches, FEFO (MM-IM)

PROFILE:

SAP developer certified in ABAP Cloud, CAP and Integration Suite, with 8 years in the meat processing industry managing goods receipt, batches, shelf life and traceability on LIBRA ERP (Edisa), whose rollout I took part in by training 40–50 plant operators. I know from the inside the processes SAP covers in MM Inventory Management, including the dual unit of measure that SAP handles with Catch Weight, and I have built that process in RAP on SAP BTP following the Clean Core strategy.

PROJECTS

- 2026 | GOODS RECEIPT WITH BATCH MANAGEMENT AND DUAL UNIT OF MEASURE — RAP / ABAP Cloud. github.com/alcaan16/zgr-goods-receipt
 - Managed RAP BO with draft: 6 determinations, 7 validations, 4 actions, OData V4; 32 ABAP Unit tests, ATC clean and minimum shelf-life validated.
- 2026 | BATCH TRACEABILITY — CAP / Node.js on SAP BTP. github.com/alcaan16/cap-lot-traceability
 - FEFO consumption split across several supplier batches down to the finished-product batch. Local development (cds watch + SQLite).
- 2026 | EXPIRY ALERTS FROM GOODS RECEIPT — iFlow on SAP Integration Suite. github.com/alcaan16/cpi-expiry-alerts
 - Flow with Timer, draft filtering and Receipt → Item → Batch mapping in Groovy; HTTPS delivery, Exception Subprocess with a forced failure.

EXPERIENCE

- OCTOBER 2017 – AUGUST 2025 | LA CARLOTEÑA ASADOS. Logistics & Inventory Control Manager · Team of 4 · Meat processing industry (chicken, turkey, pork).
 - Involved for ~2 years in the rollout of LIBRA ERP (Edisa) across goods receipt and production: defined weight recording at receipt, deboning and further processing, and trained 40–50 plant operators on the system.
 - Receipt and control of ~30,000 kg per day (~10 trucks/day) with verification against the delivery document, handling of discrepancies with suppliers and warehouse organisation.
 - Dual unit of measure: simultaneous recording in units and kilos per pallet (e.g. 320 units / 650 kg), the scenario SAP covers with Catch Weight. Traceability from supplier batch to internal production batch, shelf-life control with date-based rotation (FEFO criterion) and inventory adjustment through periodic counts.
- 2007 – 2010 | EARLY IT EXPERIENCE. Systems Technician (Dynos Informática) and Junior Programmer (Intarnet).

EDUCATION

- SAP CERTIFICATIONS.
 - 2026 | SAP Certified Associate – Back-End Developer – ABAP Cloud (C_ABAPD). RAP (RESTful Application Programming Model), CDS view entities, OData V4 services, ABAP SQL, OO ABAP and Clean Core extensibility on S/4HANA.
 - 2026 | SAP Certified Associate – Backend Developer – SAP Cloud Application Programming Model (C_CPE). CAP services with Node.js on SAP BTP: data model, service logic and side-by-side extensions.
 - 2026 | SAP Certified Associate – Integration Developer (C_CPI). SAP Integration Suite: iFlow design, mappings and error handling between S/4HANA and external applications.
- TRAINING.
 - 2026 | EXPERIS ACADEMY — 270h of official SAP training: ABAP Cloud Back-End Development (205h) and SAP Business Technology Platform (65h).
 - 2025 – PRESENT | SELF-TAUGHT FULLSTACK (MERN). Node.js, TypeScript, React, MongoDB and Docker in personal projects — the direct technical foundation for the CAP model.
 - 2008 – 2010 | HIGHER VOCATIONAL DIPLOMA IN COMPUTER SYSTEMS ADMINISTRATION (Técnico Superior) — I.E.S. Gran Capitán, Córdoba (Spain).

SKILLS

- BUSINESS & PROCESS (MM-IM) · Inventory and warehouse management · Batch management and batch traceability · Shelf life (SLED) and FEFO rotation · Dual unit of measure (Catch Weight) · Food and meat processing sector · LIBRA ERP (Edisa).
- SAP & DEVELOPMENT · ABAP Cloud (RAP · CDS · Clean Core · OO ABAP) · SAP BTP · CAP (Cloud Application Programming Model) · SAP Integration Suite · Node.js · TypeScript · JavaScript (ES6+) · REST APIs · Docker · Git/GitHub.
- ENVIRONMENT & DATA · SAP BTP ABAP Environment · SAP Business Application Studio · Eclipse ADT · VS Code · Postman · SQL · MongoDB.
- LANGUAGES · Spanish (native) · English B1.
